

St. John Regional Catholic School's Exploration Camp 2008

SJRCS Summer Camp Weeks & Themes

Week One (July 7th—July 11th): “Friends Around the World”

This week come and enjoy different cultures from around the world! You will have the opportunity to explore many different countries and learn about the people, the food, and their traditions. Get your passport stamped with us!

Week Two (July 14th—July 18th): “Play it Safe Week”

Throughout the week you will come face-to-face with those in our community that keep us safe every day. From policemen to firemen to weathermen, we will have it all this week! Learn what it takes to remain safe on your bike, scooter, & skateboard while having fun at the same time. Also, this week you explore what you need to know when it comes to fire safety. You'll learn about the weather and water safety as well!

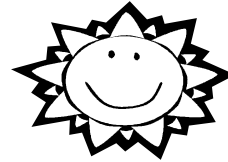

Week Three (July 21st—July 25th): “Earth and Animals”

Get ready to get your hands dirty! During week three, you will encounter a variety of animals and get up close with plants...right down to the root of it all! If nature is your thing, then you have to be here with us for this week.

Week Four (July 28th—August 1st): “Investigate Your World”

Ever wonder what goes on around you that you never see? Well, this week you will find out! You will go on an artifact dig, explore fingerprinting, & even find out what's really in the water in your pool! There is no telling what discoveries you will uncover as you explore your surroundings!

Check out the SJRCS website for registration forms and more information!
